

Do Right By Taxpayers ST Pete is NOT for Sale

Very soon, the St. Petersburg City Council is considering a Stadium Rays contract that would:

- Commit \$700M in real taxpayer \$\$ over 30 years to subsidize the Rays Hines windfall deal.
- Raise taxes/fees to get our storm/waste water infrastructure upgraded and climatize St Pete.
- Give the Rays Hines Group a deal worth \$500M in prime property for \$105M, paid out over time.
- Allow the Rays out of building 1200 affordable rental units over 30 years, for just \$25K/unit, while other developers pay on average \$150K.

The St. Petersburg Community Benefits Council agreed that two big changes were needed: 1) the Rays Hines Group was underpaying its Community benefit commitment and 2) the amount of the buyout to eliminate the affordable housing units should be at least \$150,000 per unit—not \$25, 000. The citizens of St Pete love the Rays, but NOT AT THE EXPENSE OF INCREASED TAXES FOR BADLY NEEDED INFRASTRUCTURE!
